# STOP WALMART'S WAR ON WORKERS!

Today thousands of Walmart workers are on strike demanding that the biggest employer in the world treat workers with respect. In solidarity Occupy Wall Street is occupying this store.

Workers demand that Walmart:

- **End the Retaliation** - No more intimidation, no reduced hours, no schedule changes, no firings. Walmart must follow the law and stop punishing workers for speaking out and acting together.
- **Improve Workers' Lives** - Pay at least of \$25,000/year and guarantee quality, affordable health coverage for all Walmart associates.
- **Rebuild Communities** - Sign an agreement that ensures Walmart protects the environment and takes care of its employees.
- **Elevate Global Living Standards** - Establish basic labor standards for its contractors and subcontractors worldwide.

Join us and stand with the Walmart strikers!
